TASKalfa 7551ci

COLOUR MULTIFUNCTIONALS FOR A3 FORMAT

KYOCERA Document Solutions
The TASKalfa 7551ci series has been designed to master heavy workloads in colour easily. The innovative technology incorporated in these devices ensures that the prints are not only of outstanding colour accuracy, but also printed at high speed. To make sure your device can accomplish hours of non-stop printing while you can focus on other matters, it can be equipped with various paper cassettes for 8 different paper sources, giving a total capacity of up to 7,650 sheets.

You may choose to add an optional EFI Fiery Controller to your MFP to achieve the highest productivity in combination with professional ICC-based colour management. Of course, the renowned long-life KYOCERA components guarantee the outstanding reliability you can expect from such a sophisticated device.

Apart from their impressive printing abilities, these TASKalfa devices will also copy, scan and fax* all your documents. Other features include printing in various formats up to 300 g/m², banner printing and finishing options, such as tri-folding and booklet printing. To change from one setting to another, you simply select the desired function on the large and easy-to-use colour touch panel. The MFP can be supplemented with an optional identification card system that significantly increases the security of all your documents.

*Optional
A FULLY CUSTOMISABLE DISPLAY.

For all its sophistication, the TASKalfa 6551ci/7551ci series was designed to be as simple as possible to use. It has an intuitive colour touch panel equipped with a “swipe” functionality and a customisable home screen allowing you to organise the screen according to your needs. This ensures that you will not spend more time than necessary in front of your device.

You can access all the print, copy, and scan settings as well as the optional fax function from the new colour touch panel. The large size of the panel and its movability ensure that your employees can easily select the functions they want to use. The panel features:

- A CUSTOMISABLE HOME MENU SCREEN
- A USER-FRIENDLY DESIGN.
- AN ADJUSTABLE SCREEN.
Your documents represent your business. Make the best impression possible with documents produced by one of our TASKalfa multifunctionals. Their level of colour consistency, accuracy, clarity and gradation will not only impress you, but your business partners, too.

You can add an EFI Fiery Controller to your TASKalfa 6551ci/7551ci to enhance the productivity of your device even further. The professional ICC-based colour management of the Fiery Controller allows you to turn even professionally created, complex data into detailed and precise printouts without having to turn to a professional printing shop.
The need for an efficient data protection system has never been greater than it is today. To protect against even the most determined data attacks, these new KYOCERA TASKalfa devices come equipped with IPsec and PDF encryption as standard. For even more security, you can add KYOCERA’s optional Data Security Kit that effectively deletes and overwrites all data stored on the hard disk during the printing, copying or scanning process.

Additionally, with the optional Document Guard Kit, you can stop any documents embedded with the print guard pattern from being copied, scanned or faxed. The protection of your most sensitive data can be increased even further with an optional card authentication function that prevents unauthorised access of the data.

HyPAS™, KYOCERA’s open software development platform, allows you to integrate the device into your existing business workflow. You can easily set it up from the control panel of the device to make it fit perfectly into your office environment when using ordinary business applications, such as Document Management Systems or Enterprise Resource Planning (ERP).
Productive high-quality colour output deserves first-class paper handling. The new KYOCERA TASKalfa multifunctionals come with a choice of options to answer all your possible needs.

You can for instance add a modular 4000-sheet finisher with a stapling function, to which an optional punching, booklet and tri-folding unit can be added. Additional paper trays can provide your device with a paper capacity of up to 7,650 sheets for hours of non-stop printing in eight different paper formats.

**PAPER HANDLING OPTIONS AT A GLANCE.**
